College Affiliation: NCAA
DIII

When did the program start: 2019

How many athletes have participated: In total, 20 athletes have participated in our program.

2019: 20 female athletes

“As a coach, I am fond of the competitiveness and head-to-head format as well, and especially its progressive skill development. It has been an exciting year watching athletes hone their skills and become competitive in new ways. STUNT is intriguing for athletes, coaches, parents, and fans. I am thankful it has allowed my team to set a solid foundation to build on for years to come.” - Samantha Campbell, Head STUNT Coach

“The addition of STUNT has been a wonderful add to the Hiram College Athletics Department. Not only have we provided a much-needed opportunity for an additional group of female student-athletes, but this team has captured the hearts of faculty, staff, and friends of the college. Though we have finished just one season of competition, it is amazing what our student-athletes and their coaches have been able to create since the beginning of the year. They have a lot to be proud of, and we look forward to many years of outstanding competition.” -Ellen Dempsey, Athletic Director

“STUNT has given me the opportunity to continue doing what I love and to be treated as an athlete like my peers. The sport has taught me to challenge myself physically and mentally, earning myself several executed skills I never thought possible. My greatest takeaways are those that I use in my current internship, in the classroom, and in everyday life—how to handle adversity and how important it is to focus on little details. I am so thankful Hiram added STUNT as a varsity sport.” – Dawn Condeza, STUNT Athlete
