Indianapolis, IN 46206-6222

June 20, 2019

To whom it may concern,

This letter is on behalf of College STUNT Officials Association (CSOA), in support of requesting the NCAA Committee on Women's Athletics (CWA) to add STUNT as an emerging sport.

Adding STUNT as an emerging sport at the collegiate level would open many valuable opportunities for high school athletes to continue their higher education by providing an avenue through STUNT scholarships.

The majority of CSOA officials are former collegiate STUNT athletes or former collegiate STUNT coaches. They all believe in the opportunities STUNT provides at the college level for female athletes coming from multiple sports backgrounds to play STUNT. Through grassroots initiatives, STUNT officials have made amazing progress in outpacing the growth of other sports while cultivating STUNT as a youth sport in their communities. There are many opportunities for STUNT to positively impact the young female athlete by building athleticism and confidence that can transfer to all aspects of academics and athletics. It is important these young athletes can continue to grow in their sport through their college years.

STUNT is rapidly reaching the high school level across the nation. California has already adopted STUNT as a California Interscholastic Federation (CIF) sanctioned sport at the high school level. In California, there are currently over 100 participating high schools and over 1000 games scheduled in the 2019 season. Since California's inception as an association in 2017, we have seen huge potential and growth, and anticipate another significant increase for the 2020 season as well.

If you have any questions or need additional information, please feel free to contact me. Thank you for your time and look forward to expanding STUNT.

Sincerely,  
  
Marissa Cox  
Co-President  
College Stunt Officials Association
