Please accept this letter on behalf of **Oklahoma State University (OSU)** in support of STUNT as an NCAA emerging sport. Through participation in STUNT over the past 7 seasons, we have experienced the excitement of games, the interest of female athletes, and the future role STUNT can hold for collegiate athletics.

We now have individuals attending OSU due to their participation on the STUNT team, who otherwise may not have considered the school. Some of these athletes are being recruited from high school STUNT teams in Oklahoma and California.

While STUNT can provide an effective way for universities to expand female participation and improve Title IX compliance if recognized as a sport, it is more important to recognize the opportunities that it can provide for female athletes. STUNT has provided an opportunity for more females to be treated as athletes and represent OSU. They receive the well-deserved recognition for their hard work and achievements. The team from OSU was recognized by Representative Frank D. Lucas for their success this season.

We fully support the efforts of USA Cheer to secure NCAA emerging sport status for STUNT and urge the Committee on Women's Athletics to approve their proposal for formal designation.
