STUNT Addendum

The Southwest Baptist University STUNT team utilizes the same facilities as all other sports programs at SBU, including practices and games at Myer Wellness Center as well as access to the athletes-only weight room and athletic training facilities. In addition, an athletic trainer is on-site at all practices providing pretreatment and any other athletic training needs that arise.

Our relationship with the College STUNT Association is as follows: The CSA provides a central location online where we connect with other STUNT teams to schedule games. They also provide training for our coaches with regard to game rules. All other program support, i.e. travel, uniforms, academic, athletic training, wellness, etc. are provided by the athletic department as with all other athletic programs at SBU.

We are very pleased with what the sport of STUNT has provided for our student-athletes and are looking forward to its continued growth.
